MINING, BUSINESS AND STOCKS.

EXCITEMENT IN MINING STOCKS

Other Stocks Soar Today.

Richmond - Anaconda and Emerald Away Up-Daty West Climbing - Tetro Soaring.

The sensational advances in mining stocks which began last week in May Day, culminated in a very exciting time on Saturday afternoon and evening. All sorts of rumors were affoat which affected Eagle and Blue Bell, Tesora, Tetro, May Day, Richmond Anaconda and some other stocks. The fever of excitement had not abated today, after the lapse of the day of rest and past records were again broken in and past records were again broken in several instances as the stocks went soaring to dizzy heights. May Day, which sold as high as \$2.17 on Saturday evening, moved up to \$2.46 today, though it weakened slightly at the close. Over 20.000 shares changed hands during the call. Richmond Anaconda opened at 36 and immediately advanced to 40. Tetro was traded in at from 24 to 26, while Emerald sold up to 114. Ben Butler also moved up to to 11%. Ben Butler also moved up to 11%, while United Sunbeam was traded in as high as 75. Tesora was in good demand owing to the new mill being al-

most ready to start.

Sales were made as high as \$1.15.

Little Chief was active at 2414. DalyWest reached its highest mark, selling
up to \$40.25, while Dexter released a few shares at 74. Eagle and Blue Bell was among the favorites, being traded in as high as \$1.67. Grand Central was

weaker at \$4.70, while Ajax declined at \$1.13.

DEAL ON FOR EUREKA MINE.

May Day, Eagle & Blue Bell and | Eagle & Blue Bell Directors Considering a Good Offer.

TRADING WAS VERY HEAVY LOWER MAMMOTH ORE BODY

West Vein Opening Up Splendidly-Down from Park Valley-Items From the Camps.

It is probable than an option will shortly be given on the Eagle and Blue Bell property at a good round figure. Mr. J. H. McChrystal, who came in from Tintic today, says that the directors have been approached by responsible parties. Nothing has been decided on, however, though the price is better than any previous offer made the company. It is between \$2 and \$3 per share. A number of propositions have been made the company for some time past, but none of them met with the approval of all the members of the McChrystal family and they were all urned down. The present figure is the nighest yet made and while Mr. Mc-Chrystal says no papers have yet been signed, it is probable that a deal will e closed, subject, of course, to the examination of the property.

LOWER MAMMOTH ORE BODY. Fine Chute of Silver Ore Opened Up in the West Fissure.

James Chipman returned yesterday evening from the Lower Mammoth. Of the west fissure, which is the scene of the latest development, Mr. Chipman reports a very cheerful state of affairs. The drift was first run through lead ore, afterwards encountering a low grade copper ore. This in turn has given place to a body of silver ore, which, while it is not high grade, is sa'd to be good shipping ore. A small cave has been ensountered which shows a body of silver ore about ten feet high and eight feet wide. Supt. Ball was much surprised at the new development as made during his absence from the mine. No change is reported in any other part of the mine.

ITEMS FROM PARK VALLEY. William Dix the Veteran Prospector in Town Today.

William Dix, the veteral Park Vallast night and reports a great deal of activity in the district now summer is approaching. Mr. Dix reports good ore on the 200 level of the Planet-It has just been opened up, and bids fair to make that property as famous as the Century. Quite a little ex-citement is reported over lead ore found near Dove Creek. Some very rich gold ore is said to be found on the Burton group which is being prospected. At the Century the outlook for the lower tunnel intercepting the vein shortly is very encouraging. The mine is looking fine in the upper levels, with five stopes being drawn upon for an excellent grade of gold ore.

PARK CITY ITEMS. New Concentrating Plant - At the Thunderer-Shipments.

In its weekly review of the camp the Park Record says: Messrs, Mayne & Leonard are rushing work on their concentrating plant at the Anchor mill site, which will be operated on the old Anchor middlings at this point. To procure water and force, a flume is being put in to tap the creek bed about 1,000 feet above the plant. Scales are also being put in and the operators expect to be working over the material in a few days. One of the buckets on the Silver King tram took a tumble Sunday and came down to terra firma at the second tower from the depot terminal. No damage resulted, and the cause of the uble has been located and remedled. to guard against the possibilty of langer from this source, the company s now putting up a heavy netting to extend across the road from the tower next the hill to the depot terminal. The construction work is now well under

Superintendent John Rhoden of the Thunderer, whose ground is just oposite the Anchor mill, has seven men singing a shaft at the tunnel face, 800 feet in. The shaft is now down a distance of 130 feet, and Mr. Rhoden says he indications are most favorable and encouraging. The property is very fa-vorably located and a strike at any time would occasion no surprise.

Two more teams were nut hauling re from the Quincy he Manager Mc-Laughlin yesterday. This makes ten se teams engaged in this work The Marsac refinery on Thursday shipped to the eastern market thirteen bars of bullion, 1,000 fine, aggregating about 15,000 ounces.

MINING NOTES. A very 15th car of silver ore was le-

ng assayed this afternoon. "he Carisa of Tintle had those cars of ore on the market today. The Galena King of Stockton reached

the market today with 2 cars of ore. Four cars of cre were on the market oday from the Louise S. of Blagham. The Utah of Fish Springs had a car f high grade silver-lead ore on the

parket today. Manager Weir reports conditions a little more favorable on the 1,100-level of the Alax.

The shipment from the Grizzly of Alta assayed 14 per cent copper and

J. H. McChrystal reports some lead cing encountered in an upraise in the Tetro of Tintic.

A mineralized fissure has been cut recently in the Black Jack at Mam-moth, 358 feet east of the shaft. The Taylor-Liunton sampler reported or care of ore from Bingna n, the or Station and 4 from Tinde today Settlement was to be made this after-

noon on six cars of Lower Mammoth or-dinary ore. The lot was valued at near-

A. Marks reports two and one-half feet galena in the shaft at a depth of 130 feet in the White Cloud mine outh of Diamond.-Tintic Miner.

The Dexter-Tuscarora company of Tuscarora, Nev., will hereafter make its builton shipments through the postal department instead of by express.

A 3-foot body of ore was reprited in the Tesora on Saturday afternoon. The w strike was made in the drift on independence ground. A great deal of the ore is low grade.

Evanston News-Register: The machinery for the Nebergall well on section 22, township 15, range 118, was taken off the cars at Piedmont this week and moved to the site selected for the first well. It will take about order, and it will be about a month before drilling commences.

Ely News: Mill Supt. W. H. Wickham of the Ely Mining and Milling company's plant is making a clean-up this week of the ore on hand and will leave for Salt Lake City about the 20th of this month with the product of cyanides. Mr. Wickham will visit Colorado before his return and during absence the mill will be closed

In a letter to the secretary of the In-ternational Mining Congress at Boise Cld R. Propper of Basin, Utah, says he is making arrangements with the R. G. W. and Short Line people for the shipment of about 500 pounds of nineral including in addition to gold and copper ores, all the hydro-carbous and other ores, now so abundantly found throughout the La Sal

ley prospector, came down from camp ST. PAUL LED ADVANCES.

Fifteen Thousand Shares Changed Hands at 1811/2 to 184.

Setback After a High Monday Oven Ang Was Less Than Usual - Big Rise in Illinois Central.

New York, June 17 .- St. Paul led the advances in a strong market at the opening, 15,000 shares of that stock changing hands at 1.811/2 to 1.84, compared with 1.80% on Saturday. There were gains of 1 to 11/2 besides among the grangers, Pacifics, southwesterns, trunk lines, coalers and leading industrials. The dealings were large and well distributed and there were no exceptions to the higher prices.

The almost invariable setback after a high opening on a Monday, was less than usual. Steady absorption of St. Paul practically sustained the market, the stock rising quickely after every decline and reaching 1.85%. Gains of 2 or more points were made here and there, and Colorado Fuel gained 51/6 to

Except in isolated cases after 11 o'clock prices trended downward. The large gold engagements and heavy selling of United States Steel induced re-alizing and short selling by the profes-sionals. Trading had been very animated while prices were rising, but business contracted greatly when the turn was made. Tennessee Coal and Republic Steel were exceptionally strong, the former ruling 7½ above last week and the latter 3½. Colorado Fuel week and the latter 31/2. Colorado on the other hand fell 41/4 below best. North American and Union Bag also made large gains.

Bonds were irregular. A violent rise of nearly 5 points in Illinois Central and an improvement of 314 in Atchison and 11/2 in the pretion and had little effect on the gen eral market. Missouri Pacific rallied quite strongly but the speculation in general was spotty. The Chicago Ter-minal Transfer stocks, the Wisconsin Central stocks and Lackawanna rose from 2 to 3 points and St. Paul reacted
